## Knockout Rules!

- In each round the winner in each pair is the person with the highest score after the handicap has been added.
- If scores are tied, the person in the lower average\* Hopton position group (A-K) (\*best 2 of last 3 years) wins.
- If both shooters are in the same average Hopton position group, the person with the higher handicapped score in the previous round wins.
- If the previous round handicapped scores were the same, then each successive previous round is the tie breaker, except in the first round, when the person with the lowest index number wins.
- If you are drawn against yourself, you win that round! The draw will be split – all your entries will appear in only one quarter of the draw, so that no-one will be able to meet themselves in the semi-final or final.
- Past 3 years Hopton positions that include missing scores will be adjusted upwards to compensate.

## Round Order:
